

## INTEGRATION WITHOUT LIMITATION: FOR HOSPITALS, PROVIDERS & COMMUNITIES

## SUMMIT EXCHANGE

Summit Exchange is a powerful, proven and cost-effective interoperability platform to establish seamless data exchange, addressing a wide range of technology, information integration, and automation challenges from the simple to the extremely complex.

Summit Exchange uses standards-based interface support, allowing hospitals, health systems, ACOs, practices, clinics and vendors to successfully connect to disparate systems, gather and normalize data, and streamline connectivity, communication, and data interoperability.

Expand your integration abilities

### PRODUCT DETAILS - FEATURES & BENEFITS

- **Support for the latest connectivity standards** - Connect with API/ FHIR frameworks to support RESTful connectivity between systems, and support community wide patient care with Direct Messaging that isn't limited to CCD-A exchanges.
- **PDF Integration** - Treat PDF data like any other file format for sharing information or triggering automations.
- **Additional Monitoring & Alerting** - Customizable alerts provide a proactive approach to monitoring your environment with the integrated Web Dashboard.
- **Thin Client Management** - Connect to multiple environments from your local machine (*full management of interfaces without RDP requirements; use without machine Administrator privileges*).
- **Manage Any Data Structure** - Modify any message type with built-in structure support for the Summit Mapper (*Compare input and modified output with highlighted differences; Use HL7Path, JSONPath, or XPath for identifying field locations in any message; Extensible using an intuitive SDK for advancing any integration need*).
- **Interface Management on the Go** - Connect from anywhere, from any device (*Mobile enabled access; Secure and Audited Access; Restart/Enable/Disable components; Server health information*).
- **Latest Enhancements** - *Multiple diagram views; Resubmission enhancements; Integration with SST, our RPA platform*

### SIMPLIFY DATA EXCHANGE PROCESSES

- **Comprehensive Scalability** - *Leverage unlimited connection points and deployments, combined with Advanced Performance Handling*
- **Intelligently share** - *Share and receive care information to support your patient safety and outcome objectives*
- **Maximize ROI** - *Support your operational goals through real-time data exchange delivered at great value*
- **Grow with your community** - *Be able to expand and grow your environment based on your unique community engagement goals*

# SUMMIT ENTERPRISE DASHBOARD

YOUR HOSPITAL LANDSCAPE, AT YOUR FINGERTIPS

## Product Features:

### Interface Management On-The-Go

Connect from anywhere, from any device

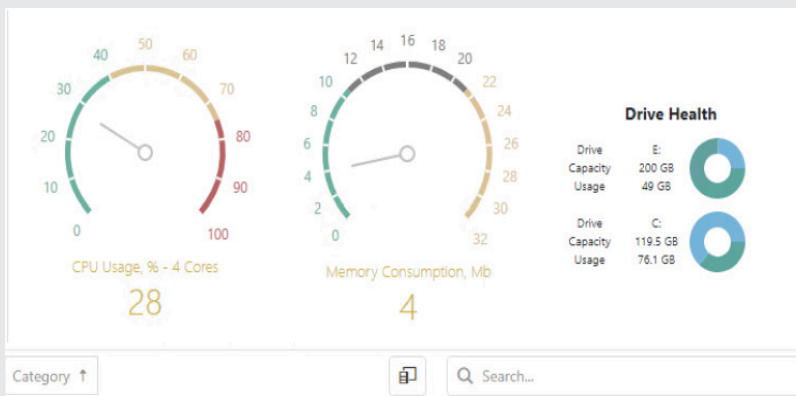

- Mobile enabled access
- Secure and Audited access
- Restart/Enable/Disable components

### Real-time Status

Up to the minute information for ease of mind

- Queued messages
- Message processing activity
- Color coded status information
- Last started/restarted information
- Server health

 SummitHEALTHCARE

This next generation engine leverages our industry knowledge and proven technology, to add in new capabilities, which meet current technology standards, regulatory standards, and customer expectations into a single streamlined engine. Whether your organization is looking to integrate with ancillary vendors, vendor monitors, physician practices, another Hospital, or an HIE, Exchange delivers a centralized, scalable platform for addressing your interoperability goals.

The demands on healthcare IT departments to configure, test, and deliver HL7 interfaces, for sharing mission critical data across patient care, financial and population health analytics systems, continue to grow rapidly. As hospitals look to cost-effectively architect accurate, real-time interoperability across systems, Summit Exchange delivers the technology to effectively leverage specific healthcare formats and messaging standards to address immediate integration goals, while laying the foundation for future initiatives.

## About Summit Healthcare

Summit Healthcare is the choice of hospitals and providers who want to take full control of their healthcare system integration, automation and business continuity needs. Since 1999, we have worked to provide the industry with the most flexible integration and automation technology with complimentary tailored services and solutions.
